

Pilgrim's Progress Travel Guides

Travel Guides are intended to print out and give to each participant at the end of the first session. The Travel Guide, with full instructions, are included in session one of the leaders guide.

At the end of each session the most important truth to remember is recorded on a Travel Guide Insertion to give to each participant to add to their Travel Guide.

The most important truth travel guide insertion for each session is available to download below as a word document, so that it can be personalised if required, or changed to suit your group.
